

PROJECT APPLICANT: Trustees of the Freeholders and Commonalty of the Town of Southampton

PROJECT TITLE: Pump Out Program Wastewater Treatment

PROJECT TYPE: Wastewater Treatment/ Pollution Prevention

SCALE: Neighborhood/Watershed

APPROACH: **Reduction**

DESCRIPTION

The proposed project is for funding of the operational budget for the Trustee Pump-Out Boat Program, which provides a pump-out service to boats within the Town of Southampton, from Eastport to Sag Harbor. This program provides boaters with access to a pump out of vessels, taking on the boats sanitary effluent at no cost to the boat operators when boaters call VHF Channel 73 during 8am-4pm or 8am-6pm depending on the coverage area. This program helps to prevent illegal dumping of sanitary waste from boats into local bays. The program has been in existence since 1995, and to date has pumped out and properly disposed over 1.5 million gallons of wastewater effluent.

REQUESTED AMOUNT: \$ 110,386
