DRAFT

Re: Monthly Progress Report for March 10, 2022 to April 10, 2022
Former Damascus Landfill.
East Quogue, New York
NYSDEC BCP Site #C152253

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the remedial activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- Sampled the five monitoring wells installed in February 2022 along with existing NYSDEC monitoring well MW-2 on March 21, 2022, for PFAS analysis, awaiting data.

In the following month, we plan to perform the following:

- Draft a technical memorandum summarizing the findings of the test pit investigation and the results of the groundwater sampling; and,
- After discussing the technical memorandum with the NYSDEC and NYSDOH, resume on-site groundwater profile sample collection and analysis for PFAS.

Please feel free to contact me at 631 283 6055 x 1865 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Francis Zappone". The signature is written in a cursive, flowing style.

Francis Zappone
Deputy Supervisor
