

PROJECT APPLICANT:

OWL Partners LLC

PROJECT TITLE:

Calissa Restaurant Septic Improvement Project

PROJECT TYPE:

Wastewater Treatment Project

SCALE:

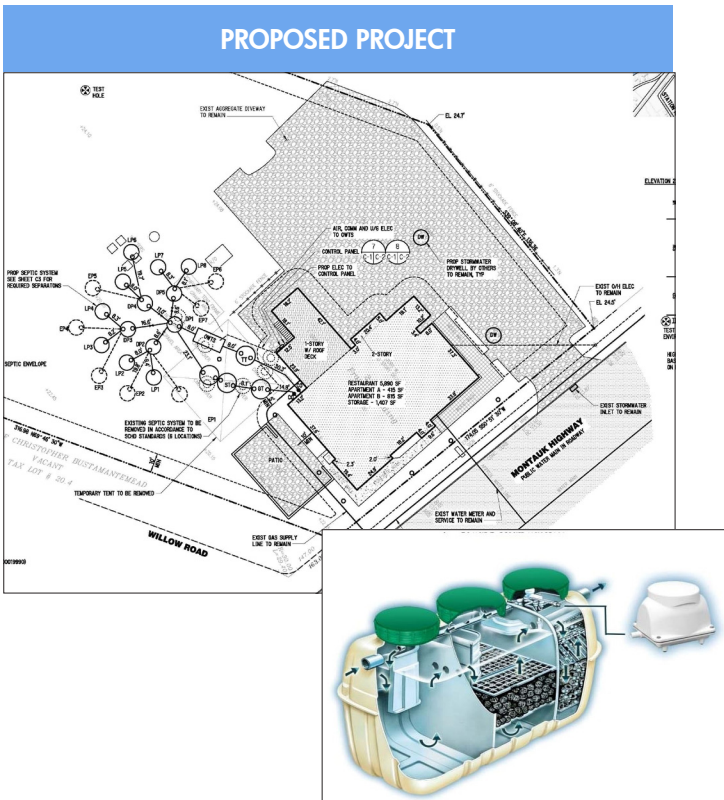

Neighborhood/Watershed

APPROACH:

Reduction

DESCRIPTION:

The project proposes to install a Fuji-Clean (CEN21) Innovative/Alternative Onsite Wastewater Treatment System (I/A OWTS) capable of treatment of 1,900 gpd, to accommodate the restaurants replacement of the existing failing sanitary system. Documentation has been provided noting that the existing sanitary system has been pumped out routinely in previous years. The property is located within the watershed of Mecox Bay which is classified by the NYS DEC as a 303(d) impaired waterbody, which has shell-fishing restrictions due to fecal coliform pollutions from existing sanitary systems.

REQUESTED AMOUNT:

\$200,199.64
