Re: Monthly Progress Report for June 10, 2023 to July 10, 2023
Former Damascus Landfill
East Quogue, New York
NYSDEC BCP Site #C152253

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the investigative activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- On June 8, 2023, submitted letter summarizing the soil and groundwater data collected in March 2023 to the NYSDEC and NYSDOH. The letter included recommendations for advancing the RI to the next phase of investigation including the completion of three offsite groundwater profile borings.
- A conference call was held on June 23, 2023, with the NYSDEC and NYSDOH to discuss the finding and recommendations presented in the summary letter.

In the following month, we plan to perform the following:

- Complete on-site soil borings on July 7, 2023, in order to re-sample on-site soil for PFAS/SPLP PFAS analysis.
- Continue with the implementation of Phase 5 with the completion of off-site profile borings OSPB-1, OSPB-3 and OSPB-4 with the collection of groundwater samples for PFAS analysis.

Please feel free to contact me at (631) 283-6055 x 1865 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Francis Zappone". The signature is written in a cursive, flowing style.

Francis Zappone
Deputy Supervisor
