**Re: Monthly Progress Report for November 10, 2023 to December 10, 2023**  
**Former Damascus Landfill**  
**East Quogue, New York**  
**NYSDEC BCP Site #C152253**

Dear Ms. Sweet,

The Town of Southampton is pleased to submit this progress report to the NYSDEC regarding the investigative activities at the Former Damascus Road Landfill.

Since the previous Progress Report was prepared for the above-referenced site, additional activities that have been completed include the following:

- D&B completed a total of three off-site vertical profile borings in November 2023 downgradient of the Damascus Site along Montauk Highway to obtain additional groundwater samples for PFAS analysis. The scope and location of the completed borings were in accordance with discussions held with the NYSDEC and NYSDOH.
- D&B collected four surface soil samples from the Damascus Site for chemical analysis.

In the following month, we plan to perform the following:

- D&B will receive laboratory data for the vertical profile boring groundwater samples and the surface soil samples collected in November 2023.
- D&B will draft a letter report for submission to the NYSDEC and NYSDOH summarizing the above data along with recommendations for the installation of permanent groundwater monitoring wells downgradient of the Damascus Site.

Please feel free to contact me at (631) 283-6055 x 1865 if you have any questions.

Respectfully,

A handwritten signature in black ink that reads "Francis Zappone". The signature is written in a cursive, flowing style.

Francis Zappone  
Deputy Supervisor
